EDUCATION

Colorado School of Mines; Golden, CO

B.S. in May 2020

Major: Computer Science

Minor: Electrical Engineering

Clubs

- Solar Decathlon Team - Designing and building a tiny home
- Poster Club - Helping students use open source software to learn about graphic design
- Rocket Club - Designing, building and launching rockets

TECHNICAL SKILLS

Programming Languages

Python, GoLang, Javascript, HTML/CSS, Solidity, C++, C

Software Experience

Programming: Five years of programming experience including; writing and interfacing with REST APIs, embedded, systems, algorithmic trading, IoT, automated systems, web servers, decentralized contracts, platform specific bots.

3D Modeling: Solidworks Associates, AutoCAD Experience

Hardware Experience

Circuitry, breadboarding, PCB assembly, welding, wood and metal shop experience

TECHNICAL EXPERIENCE

ECCO Safety Group Internship

At ECCO Safety Group I was tasked with designing and programming a light engine tester. This assisted me in understanding how the automobile standard Control Area Network (CAN) communication works. I used an Arduino with a CAN attachment to send and receive signals to and from the CAN bus.

www.eccosafetygroup.com

Mines Entrepreneurship and Innovation Challenge Finalist: I and a team of peers competed and are currently finalists for a mining related entrepreneurship and innovation challenge where we are tasked with finding, designing and building a solution to make mining more efficient and safe.

EMPLOYMENT

Workshop Supervisor: I work in the wood shop on campus ensuring that students are safe and know how to properly use the equipment provided. I am as a result comfortable around large tools such as jigsaws, bandsaws, and table saws.

Rafting Guide: I am a raft guide for my local church a few times a week over the summer. I guide 8 to 10 people down the Main fork of the Payette or The Cabarton River Run in a large raft as part of the bigger group. This has honed my leadership skills and given the ability of thinking clearly under pressure.
