Education

Boise State University: 2019-Ongoing
Masters in Electrical Engineering
Expected Graduation 2022

Programming Abilities

REST API's, embedded systems,
automated systems, machine learning,
GCS

Internships

ECCO Safety Group - eccosafetygroup.com

At ECCO I worked on a light engine tester,
utilizing the automobile standard CAN and an
Arduino.

Royal Jay - royaljay.com

I worked to see how machine learning could
be applied to anonymized healthcare data to
derive trend and predict healthcare outcomes

Employment

Math Tutor (2019-Ongoing)

Teaching is an important skill, and I've had the
opportunity to tutor high school students in math
which has been rewarding

Rafting Guide (2016-Ongoing)

Leadership in rafting is a requirement, and being able
to guide different Idaho communities on the river is a
great way to experience and share the outdoors

Sykes Customer Service (2019-2020)

During COVID19, I worked remotely helping mobile
customers get their service working. I learned how to
communicate effectively, and stay patient

Woodcraft of Boise (2018-2020)

I worked as a manufacturer and inventory supervisor
for Woodcraft, ensuring our products were made on
time and remained in stock. I also ensured workshop
cleanliness, and ensured safety measures were held
