Education

Boise State University: 2019-2023
Bachelors in Electrical Engineering

Employment

Rapid Systems Engineering (2024-Ongoing)
At RSE I design and layout blueprints that are used in the installation of fiber and electrical systems.

BSU Teachers Aid (2022-2023)
Being hired as a Lab TA on campus is nice, it provides me the opportunity to help students while reinforcing ideas from previous classes.

Math Tutor (2019-2024)
Teaching is an important skill, and I've had the opportunity to tutor elementary to high school students in math which has been very rewarding

Sykes Customer Service (2019-2021)
During COVID19, I worked remotely helping mobile customers get their service working. I learned how to communicate effectively and stay patient

Woodcraft of Boise (2018-2020)
I worked as a manufacturer and inventory supervisor for Woodcraft, ensuring our products were made on time and remained in stock. I also ensured workshop cleanliness and ensured safety measures were held

Rafting Guide (2016-Ongoing)
Leadership in rafting is a requirement and being able to guide different Idaho communities on the river is a great way to experience and share the outdoors

Internships

ECCO Safety Group - eccosafetygroup.com
Worked on a light engine tester, utilizing the automobile standard CAN and an Arduino.

Royal Jay - royaljay.com
Worked to see how machine learning could be applied to anonymized healthcare data to derive trends and predict healthcare outcomes

Idaho Power - idahopower.com
At Idaho Power, I completed a residential transformer analysis on customer data to find how the energy grid will be impacted by the addition of EV chargers over time.

3.5 GPA

Programming Languages

Python	●	●	●	●	●
Go	●	●	●	●	
Matlab	●	●	●	●

PCB Assembly	●	●	●	●	

Accomplishments & Projects

City Council Run (2025)
Ran for Garden City City Council, involved a lot of learning of local laws and campaign regulations

Film Production (2024 - Ongoing)
Helped produce several short films doing audio and assistant director work.

Custom Synthesizer (2022)
Designed and built a synthesizer using my EE knowledge and 3D printer.
