

Education

Boise State University: 2019-2023
Bachelors in Electrical Engineering

Employment

Rapid Systems Engineering (2024-Ongoing)

- Utilize city standards to design engineering plans for fiber and electrical systems.
- Coordinate with city engineers for plan revisions.
- Manage invoice items for companies we contract with.

BSU Lab Teachers Aid (2022-2023)

- Used safe lab techniques to design complex circuits.
- Worked with students to aid learning EE lab material.

Tutor at BSU Veterans Service Center (2022)

- Coordinated with VSC employees to find times and veterans who needed math help.
- Worked with veterans and taught varying levels of math.

Sykes Customer Service (2019-2021)

- Worked with customers and effectively communicated. remote fixes to issues they encountered.

Accomplishments & Volunteer Work

Garden City Council Run

In 2025 I ran for Garden City Council requiring volunteer coordination, understanding local laws and, an awareness of local businesses.

Film Production

Assisted production of several short films doing audio processing and assistant director work.

Custom Synthesizer

Designed and built a synthesizer using my circuit knowledge and CAD design experience.

Rafting Guide

I have been guiding for various non-profit organizations in Idaho for years. This requires leadership expertise and confidence.

Software Proficiencies

Microsoft Suite	●	●	●	●	●
CAD Software	●	●	●	●	●
Circuit Design	●	●	●	●	
Video Editing	●	●	●	●	
Photo Editing	●	●	●	●	

Hardware Proficiencies

Wood Working	●	●	●	●	●
Circuit Assembly	●	●	●	●	●
3D Printing	●	●	●	●	
PCB Assembly	●	●	●	●	

Technical Capabilities

- Programming in a variety of languages
- Digital and analog signal processing
- API services, web servers, large data processing, web design
- Low voltage system design

Internships

Idaho Power - idahopower.com

I completed a large scale residential transformer analysis on customer data to learn how the energy grid will be impacted by electric vehicles and residential chargers.

Royal Jay - royaljay.com

Worked to see how machine learning could be applied to anonymized healthcare data to derive trends and predict healthcare outcomes.
